GREEN BUG IN KANSAS  
(Toxoptera graminum Rond.)

Information has just been received from Professor J. W. McColloch, Associate Entomologist, Manhattan, Kansas, that general infestations of the green bug are reported by the county agents of Harvey and Ness Counties. The green bug is still active in the northwestern part of the State.

INVESTIGATION

U.S. DEPARTMENT OF AGRICULTURE

Report of the

Special Agent in Charge

CHAS. E. HARRIS  
(Special Agent in Charge)

Information has been received from Professor J. W.  
McCluskey, Associate Entomologist, University of Kansas, that several  
specimens of the species are being sent by the county agents of  
Kansas and New Mexico. The specimens are being sent to the  
entomological department of the State.
